

# "Maggie"

our porcelain angel

1998 - 2009

*"You never get over losing them; you just get used to living without them."*

Maggie had a tough start at life and wasn't well socialized. Things that a "normal" dog did, Maggie felt uncomfortable with. We loved her very much and wanted to do everything we could to help her live a happy life where she could feel love and give love. And with love, persistence and patience, Maggie started coming out of her shell and then continued to blossom for the rest of her life. Her sweetness and gentleness made her a special and forever loving member of our family.
